Sierra Pacific Bi-fold Windows and Doors glide smoothly to create large openings that transform your living spaces. With panels folding and stacking either to one or both sides of an opening, our Bi-fold products are both functional and aesthetically pleasing. The minimal panel stack widths further enhance the clear opening space.

Sierra Pacific Bi-fold Windows and Doors:

- Available in both inswing and outswing configurations.
- Available in wood or fully extruded, durable aluminum clad exterior:
 - Wood species include Ponderosa Pine, Douglas Fir, Knotty Alder and other species upon request.
 - Aluminum clad exteriors feature more than 50 environmentally-friendly colors in 5 industry-leading color collections.
- The minimum jamb thickness for outswing products is 4 9/16" and for inswing and wood exterior products is 6 9/16".
- Hardware includes:
 - Heavy duty hinges with stainless steel bearings for corrosion resistance and smooth operation. The number of hinges varies with the panel or sash height. The hinges are available in US 32D stainless steel, PVD brass and bronze finishes.
 - "D" shaped pull handles are integrated into the hinges of all outswing product for ease of operation. The number of "D" handles varies with the panel or sash height. There is a separate handle on inswing products.
 - Symphony Style flushbolts: The length of the flushbolts varies according to the panel or sash height. The flushbolts are available in brushed aluminum (mimics stainless steel), bright gold aluminum (mimics PVD brass) and bronze powder coated finishes.
- The panels or sash match the profile of other Sierra Pacific products for a clean, consistent look.
- Sills are available in standard water resistant and low profile ADA or u-channel designs in either bronze or clear anodized finishes.
- The clad outswing head track is powder coated to match the frame, while the inswing and all wood product head track is anodized bronze.
- Standard glass options apply, although some obscure patterns may not be available due to limitations on larger size stock.
- Our Bi-fold products carry the standard Sierra Pacific Limited Warranty. Request a copy from your sales representative or visit our website to download your copy.
- Check with your Sierra Pacific sales representative for lead times and pricing information.

Doors

- The Bi-fold Door accommodates openings up to 23' wide and 10' tall.
- Available with 4 5/8" or 3 3/8" stiles.
- Access doors are available in most configurations and allow egress with the folding panels in the closed position.
- Access door trimset hardware is Hoppe Munchen 374 (standard).
- Finish options are: white, polished chrome, brushed chrome, antique brass, brass, matte black, satin nickel, rustic umber and oil rubbed brass.

The E-3 System

- Available with 1 3/4" or 2 1/4" thick panels
- Maximum panel height 120"
- Maximum panel width 39"
- Maximum panel weight 176 pounds
- Maximum opening width 23'
- E-3 hardware has been tested in-house to LC-25

The E-4 System

- Available with 2 1/4" thick panels only
- Maximum panel height 120"
- Maximum panel width 42"
- Maximum panel weight 264 pounds
- Maximum opening width 23'

Windows

- The Bi-fold Window accommodates openings up to 23' wide and 7' tall.
- Window sash features 2 5/16" stiles and rails.
- Hardware finish options are oil rubbed brass or satin nickel finish.
